Fear of Reprisal May Bar Use of A-Bomb If New War Comes

This year's Army Day, April 6, will be the first in the atomic age. Here is the first of five articles on atomic warfare and the forces preparing for it.)

By CLARKE BEACH
Associated Press Writer
WASHINGTON, April 2 — The world now has been disclosed to the men who share the dark secrets of the atomic bomb for us. It is what World War III will be like—if folly permits it.

There is still some hope among the makers in this country that Great Britain that even comes the thought of disaster consequences might stop them from launching the bomb against a state prepared to strike back with the same.

Three Reasons
Extending this hope suggests the first blow were a nuclear one, there would surely be

The above statement, taken from a recent letter to us, is typical of the enthusiastic endorsement ENDOCRINE has received over the last 8 years from thousands of grateful women. For it is a fact that ENDOCRINE can, especially for most middle-aged women, help the skin of face and throat to become firmer, fresher, more alluringly youthful-looking than was hitherto thought possible through cosmetics. ENDOCRINE contains ACTIVOL®, an effective replacement for woman's own natural, skin-beautifying substance, which, as it is absorbed by the skin, helps restore normal growth to aging cells and tissue. If an atomic attack should come, the scientific and military experts agree, it will be unannounced, swift, designed to be so devastating as to make retaliation impossible. The bombs may come by plane or rocket. Or if they become so simplified that they can be smuggled across a country's borders, they may be secretly planted in vital locations. The aggressor nation might then announce to the victim that they would be exploded in a matter of hours if he did not surrender.

With the atomic bomb attack would come other destructive forces, the experts say, such as radio-active gases, which are now known.

At present science says it sees little hope of finding a way to fend off atomic bombs. Yet history shows that almost every new weapon has been described as meaning "the end of the world."

is not impossible that some day a way to meet the atom bomb will be found.

"Strike First"

At present, however, the only defense seems to be speedy mobilization of forces to resist invading troops and immediate counter-attack with atomic weapons. Once the supply of atomic bombs is exhausted—and it is believed likely that the supply always will be limited—the war can be fought out with whatever remnants of men and conventional military equipment that may be available.

"But don't wait for the attack. Strike first!"

That's what Major Gen. Ray E. Porter, director of the special planning division of the war department, said to this writer.

General of the Army Dwight D. Eisenhower, however, testifying

before the house committee on military affairs, said:

"We are never going to do it first. I am certain of that. The United States never has, and I believe we will always be true to that American tradition. We are not going to deliver the first blow."

Final Dividend Set for Cardington Firm

By The Associated Press
COLUMBUS, O., April 2 — An eighth and final liquidating dividend to shareholders of the Morrow County Building and Loan Co. of Cardington was authorized by Francis L. Voss, state superintendent of building and loans yesterday.

The dividend of 24 per cent, or \$7,475, will bring the total return to shareholders to \$91 per cent of their claims, or \$90,250. Dividends have been paid in full. The company was placed in liquidation Oct. 4, 1939, at the request of its directors.

Gromyko's Spoiled Child Action Explained.

NEW YORK, April 2.—The "spoiled child" action of Gromyko, Soviet foreign minister, was explained today by a leading Soviet official. He said that Gromyko was not a spoiled child, but a man who had been treated as such by the world.

These are natural questions which arise in the minds of our people. They are not, however, questions which should be asked. They are questions which should be answered.

Coal Strikes Since 1919

United Mine Workers Helped by New Deal.

A strike of 22 days in 1941 was the eighth since 1919, not including wildcat strikes, work-outs in small producing areas, or separate anthracite strikes.

A contract signed in 1917 was to run until April 1, 1920. During World War I the mines were controlled by the government.

On Dec. 10 the miners accepted arbitration by a presidential commission and went back to work. The award, on March 10, 1920, granted a 27 per cent wage increase.

In 1922, the 1919 wage scales were renewed, after a strike had lasted five months and President Harding had intervened. This was the first time that bituminous and anthracite miners had struck in unison.

The collective bargaining guarantee of the N.R.A. Act of 1933 and the support of the Roosevelt administration enabled the union to regain control of the bituminous mines in 1939 especially after the two Guiffey coal acts had regularized the industry.

ATLAS HAD A CINCH

From News of Other Years

TEN YEARS AGO. It was Thursday, April 2, 1936. Spring wind and rain were blowing from the southeast and caused more than \$1,000,000 property damage with the major loss centered at Toledo, Ga.

Lydia Ann Graham, 98, known as the last widow of the war of 1812, died at her home in the hills near Ashland, Va. The widow of Isaac Graham, a drummer boy in the war, was described by the veterans bureau as the one person receiving a pension in the year ending June 30, 1935, for services rendered in the war of 1812.

Funeral services for William "Billy" E. Moore, one of the most widely-known men of his time in harness racing circles, were conducted at the Schaffner-Queen funeral home. Mr. Moore, who was 84, died the preceding Sunday in Denver, Colo.

Christine Rieck was named delegate to the state convention of the Ohio Federation of Women's clubs at Toledo in May, by members of the Quaker club in their meeting at the home of Mrs. E. O. Smith of Forest street.

Mrs. J. F. Steiner of Bluffton, secretary of Christian citizenship of the Woman's Home Missionary society, Lima district was speaker at a luncheon given by the Woman's Home Missionary society of Wesley M. E. church. She spoke on "Old Friends in New Attire."

An Easter pledge of \$100 for current expenses of the society was made by the Ladies' Aid society of the Prospect Street Methodist church, at a meeting held in the church parlors.

THE CHURCHY AGO. It was Friday, April 2, 1926. An investigation was started in New York City into the adventures of Edward W. Browning, wealthy real estate man.

President Coolidge appointed Carmel Thompson of Ohio to make an investigation of economic conditions in the Philippines. John C. Gurnea, former sheriff of Crawford county and an auctioneer there for 30 years, died in Mt. Carmel hospital at Columbus.

The monthly report of City Clerk H. N. Stoffer listed 34 building permits for March. Nineteen of them were for garages.

City council unanimously adopted ordinance granting a 25-year franchise to Marion Water Co. and fixing water rates and hydrant rentals for the following 10 years. The water company agreed to launch at once a \$200,000 extension and improvement program including a \$150,000 water softening plant. The city was to have soft water in two years and until then the minimum rate to be \$14 a year. For the next eight years following completion of the water softening system the rate was to be \$18 a year.

Members of the Algonquin club of Marion motored to Galien where they were guests at an indoor picnic at the home of Mrs. Lester Schreck.

STOCK BUYERS STILL IN CAUTIOUS MOOD

By The Associated Press
NEW YORK, April 2.—Investors continued to show a cautious attitude in today's market, but many buyers were attracted to the stock market by the news that the Federal Reserve board had decided to keep the discount rate at 6 percent.

Buyers were cautious because of apprehensions over the effect of the Federal Reserve board's decision on the stock market. The board's decision was expected to have a stabilizing effect on the market, but investors were still cautious.

The market opened with a slight advance, but soon fell back. The Dow Jones industrial average closed at 114.14, up 0.14 from the previous day's close.

The market was characterized by a lack of enthusiasm and a general feeling of uncertainty. Many investors were waiting for a more definite signal from the Federal Reserve board before committing their funds.
